# YOU BENEFIT FROM THINGS WE DO!

We ship over 90% of orders the same or next day.

We have toll free (800) telephone numbers.

We accept Visa and MasterCard by telephone.

We do ship most parts C.O.D.

We have re-engineered over 60 of the high-failure-rate items.

We stock and sell books and manuals.

We install, repair and wholesale Turbochargers.

We are open 5½ days a week. The telephone is answered 24 hours a day, 7 days a week.

## **WE RETURN CALLS!**

We test our modifications **before** we market them.

We will help your mechanic.

We repair components, i.e., Fenders, Hoods, Facias, ¼ Panels, Transaxle

(manual or automatic) Engines, Speedometer Drives, etc.

We expect to be doing all these things for many years to come.

**Ben Byrd** is the president of **Scientific Automotive**. He was with **DeLorean Motor Company** in a multitude of responsible management activities. He was heavily involved in the identification and correction of product deficiencies, both in the U.S. and in Europe. Prior to joining **DeLorean Motor Company**, he spent 17 years in Chrysler Corporation management and dealerships. Product Engineering, Production, Finance, Industrial Engineering and Parts/Service all benefited from Mr. Byrd's many contributions. His automotive expertise is as deep as it is broad.

## **PLEASE BE CAREFUL..**

### **SOME OTHER SUPPLIERS HAVE PROVIDED:**

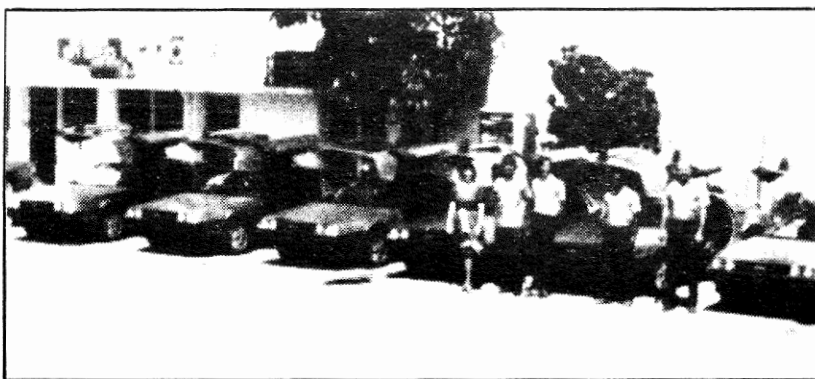

1. Speedo drive adapters that cause 12.5% error.
2. Rear spoilers that crack badly and separate. (with no warranty)
3. Front spoilers that are as flimsy as an innertube.
4. Lowering advice that resulted in collapsed springs and miserable handling.
5. Wipers that look "trick" but don't help and that may increase loading on the motor and linkages.
6. Transmission cooling advice that goes beyond overkill.
7. Headlight covers that fly off.
8. Ridiculously expensive turbo chargers.

# YOUR DELOREAN'S UNDIES ARE SHOWING...!

These and other side stripes are in stock at **Scientific**.

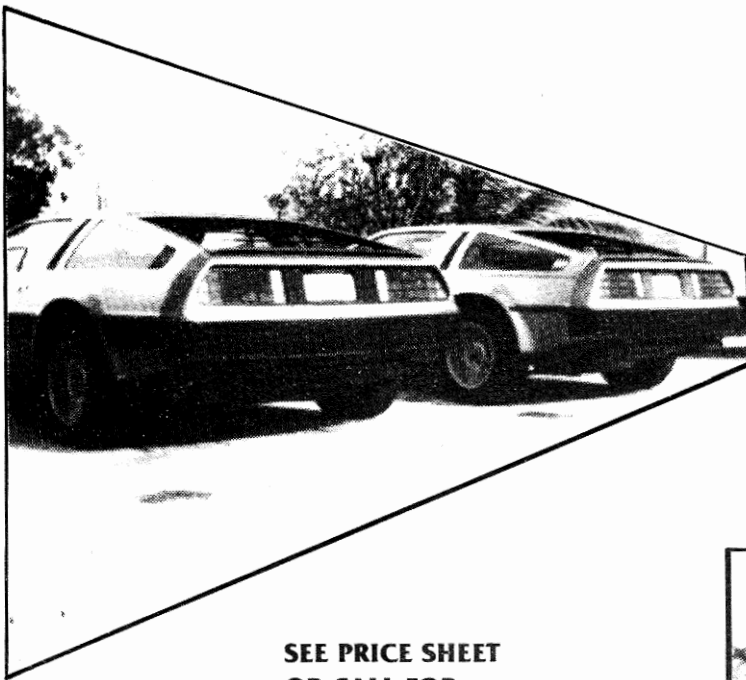

The rear appearance is greatly improved. Especially important if you get one of our Turbos.

When viewed from another sports car, the **muffler, bracket, & frame** make the rear end look unfinished. This **Stainless Steel** panel provides a finished look.

**Tested for influence on engine temperature.**

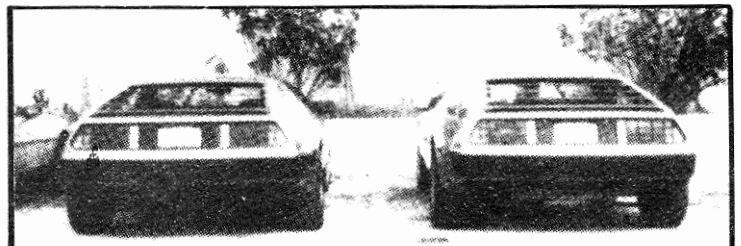

**Engineered for  
"15 Minute" Installation.**

**In Black Semigloss or  
Matching Grain Stainless.**

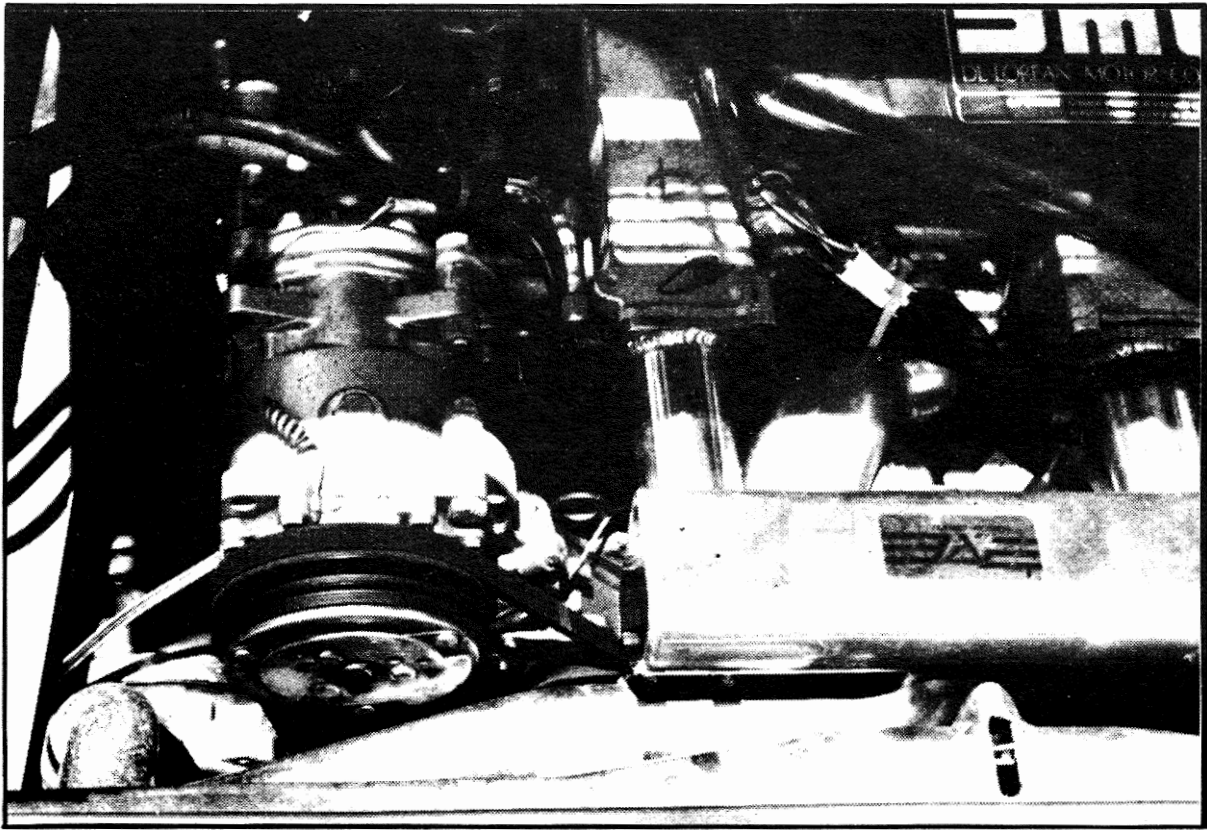

**SEE PRICE SHEET  
OR CALL FOR  
PRICE INFORMATION**

NOTE THE DIFFERENCE.

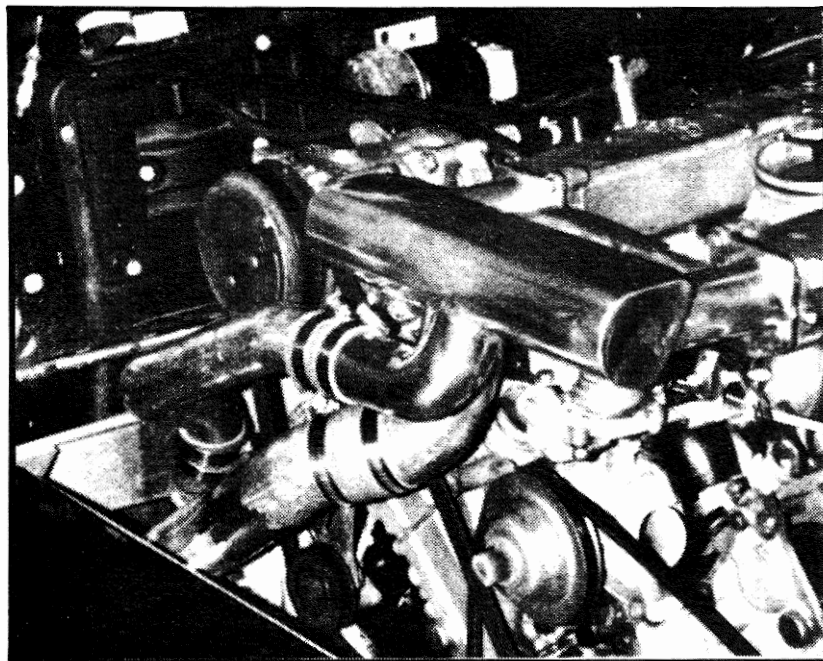

The **BAE TURBO** was engineered specifically for the DELOREAN. This is the same unit which was to have been an option on the '83's. We have had 4 years to improve and develop this very complete kit to its present state.

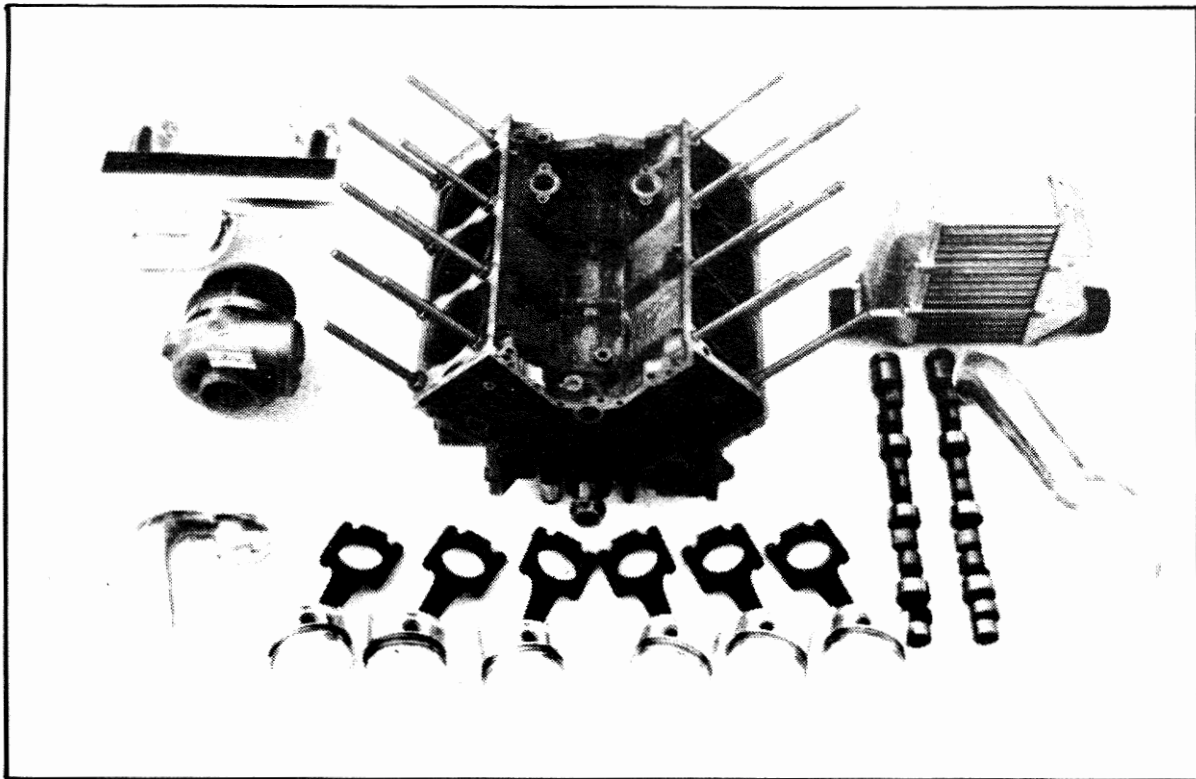

**40%**  
INCREASE  
IN  
**H.P.**  
&  
**TORQUE!**

Let Your  
Engine  
Deliver  
The  
Promise  
The  
Body  
Makes!

Notice the quality of the fit, welds, & castings. A 2 year Engine Warranty is available on units installed in our shop.

**IF A 40% INCREASE IN POWER ISN'T ENOUGH...  
LOOK AT THIS WORK OF ART!**

**DOUBLE** the original **Horsepower** and still dependable. We can ship you or your mechanic the parts, or you can ship us your car or engine for us to do the "**KILLER**". Shown above are Forged Pistons, a Modified B.A.E. Kit, Turbo Cam Shafts and an Intercooler.

Other camshafts and pistons are available for non-turbo application.

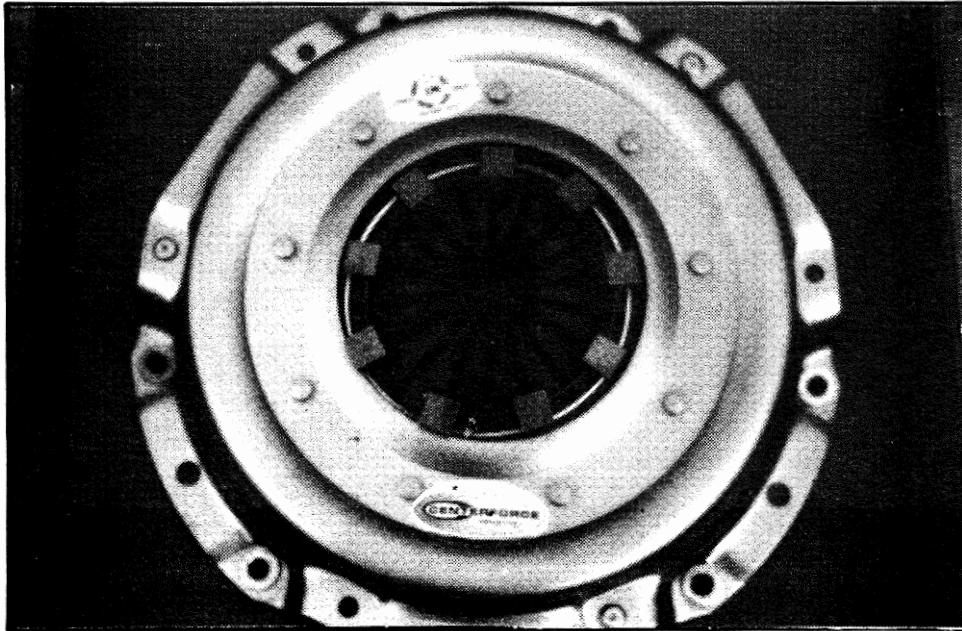

We sell and recommend the Edlebrock water injection as a way to run a little higher boost pressures without the expense of an intercooler.

We will also provide an appropriately sized intercooler (or two) as a do-it-yourself project.

SEE PRICE SHEET OR CALL FOR CURRENT PRICES.

YOU CAN GET A CLUTCH AND PRESSURE PLATE THAT WILL **HOLD BETTER** AND **LAST LONGER** FOR THE SAME PRICE AS THE "TOO WEAK" ORIGINAL EQUIPMENT.

Recommended for any Turbo Car is the Super Heavy Duty unit shown above.

We have been installing Steel Clutch Tubes for over 2 years. They are a good idea for all DELOREAN MOTOR CARS. Why should you pay \$95 for them?? We sell them for **less than** 1/3 of that.

Would you like a set of precut reinforcement plates to repair the sunshade center & side members? Look no further.

Sometimes all it takes to stop tearing the inner door weatherstrips is to trim the upholstery in the areas of abrasion. We stock the clips and the weatherstrips.

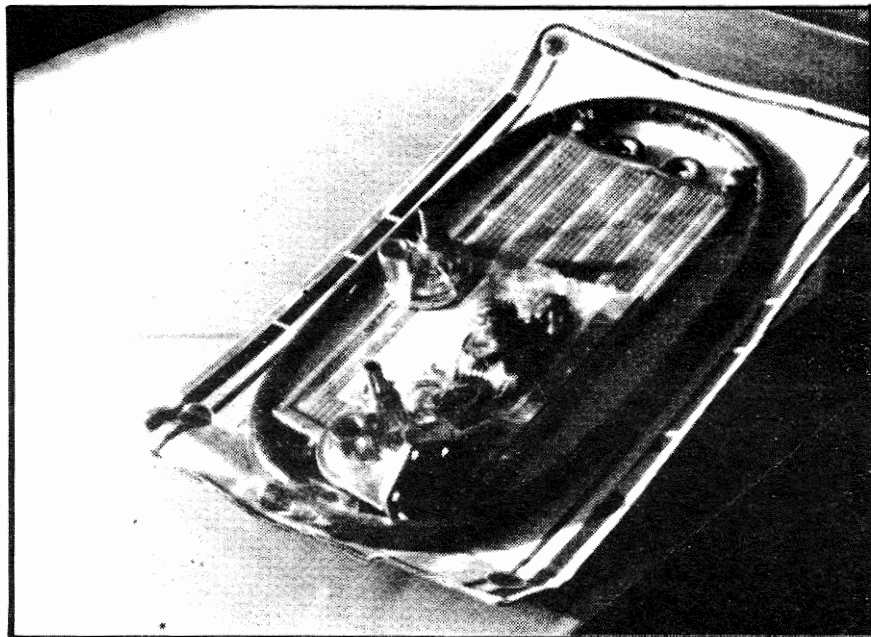

SEE PRICE LIST OR CALL FOR CURRENT PRICES.

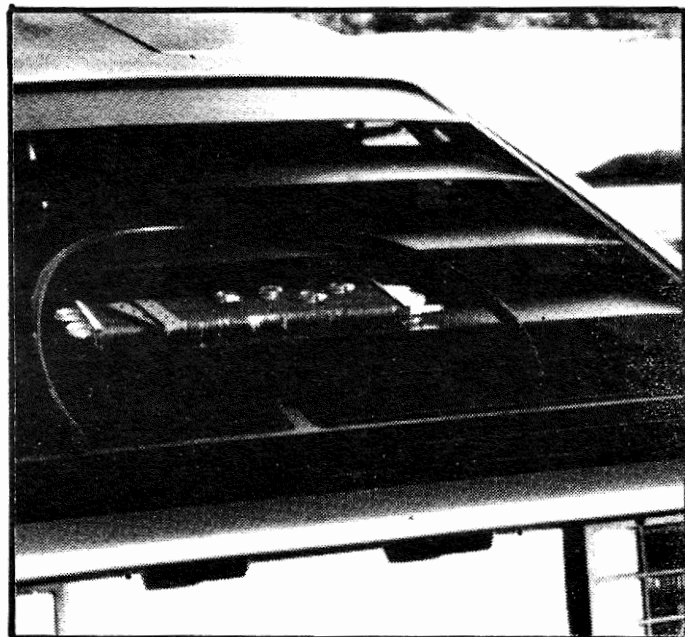

## **IF YOU RUN YOUR DMC HARD, YOU'LL NEED AN ENGINE OIL COOLER.**

We supply complete with adaptors, fittings and instructions, with or without remote oil filter (shown). These kits work fine, but if you drive your DMC in extremely cold conditions and lots of snow, you may want to also install a thermostatic flow control valve.

WE HAVE TAKEN THE  
PRELIMINARY MEASUREMENTS.  
A CHEVY V-8 WILL  
FIT MIDSHIP.  
**WHO WANTS TO BE FIRST?**

THE AUTOMATIC  
TRANSMISSIONS  
RUN HOT TOO.  
A COOLER IS  
RECOMMENDED IF  
VEHICLE IS  
DRIVEN VIGOROUSLY.

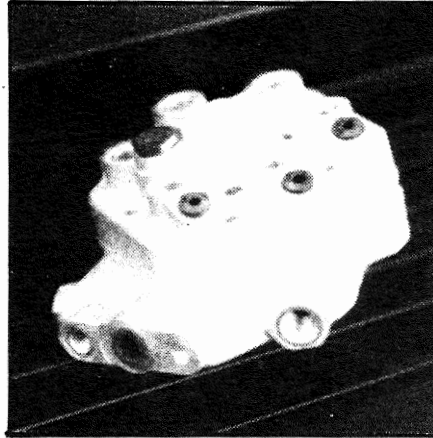

SEE PRICE LIST OR CALL FOR CURRENT PRICES.

WE HAVE GOTTEN IN A FEW  
**“EUROPEAN FUEL INJECTION FUEL DISTRIBUTORS.”**

They are for “OFF ROAD USE ONLY” and will yeild performance gains at less than an original equipment price.

**EVEN BETTER  
WITH THE  
TURBO**

We, of course, can provide complementary cam shafts, pistons, and exhaust systems for “OFF ROAD” use only.

The aluminum body fuel distributor doesn't use the Lambda frequency valve or oxygen sensor and is therefore illegal for street use.

We also carry the original equipment.

The Automatic Transmission cars are pretty lazy “OFF THE LINE”. We have a trick Torque Convertor to correct this problem. Especially exciting with a Turbo or other modifications. The Torque Convertor allows engine RPM to come up more quickly, launching the car under more power.

For high RPM use, specify Goodyear belts for your DMC alternator.

Key blanks in popular brands include:

Curtis BL-1 & BL-5

Dominion NE24 & WB2

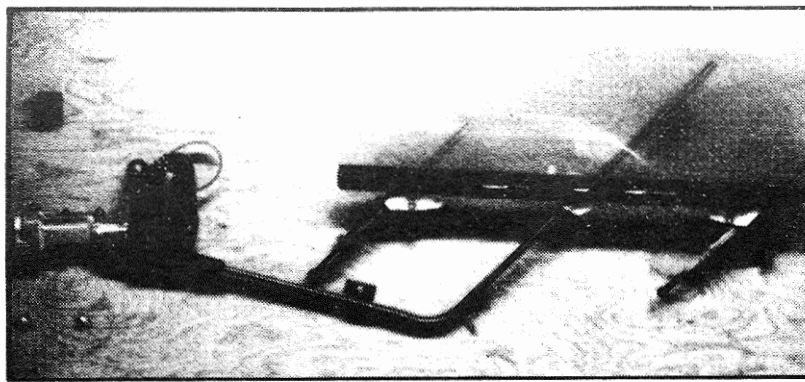

Taylor X29 & X55

Temporary repairs can be made to your plastic coolant tank with a soldering iron. Same for the windshield washer reservoir.

Don't replace the entire A-C compressor when only one part of it fails. We have the individual parts.

G.M. WINDOW DRIVE ADAPTATION

We have done a lot of research into improving the reliability of the Delorean Window Drives. Shown above, is the adaptation of the G.M. Drive. Below is another alternative. Made in Europe, specifically for the DMC. They work Great.

**NO FAILURES YET!**

EUROPEAN WINDOW DRIVE CONVERSION

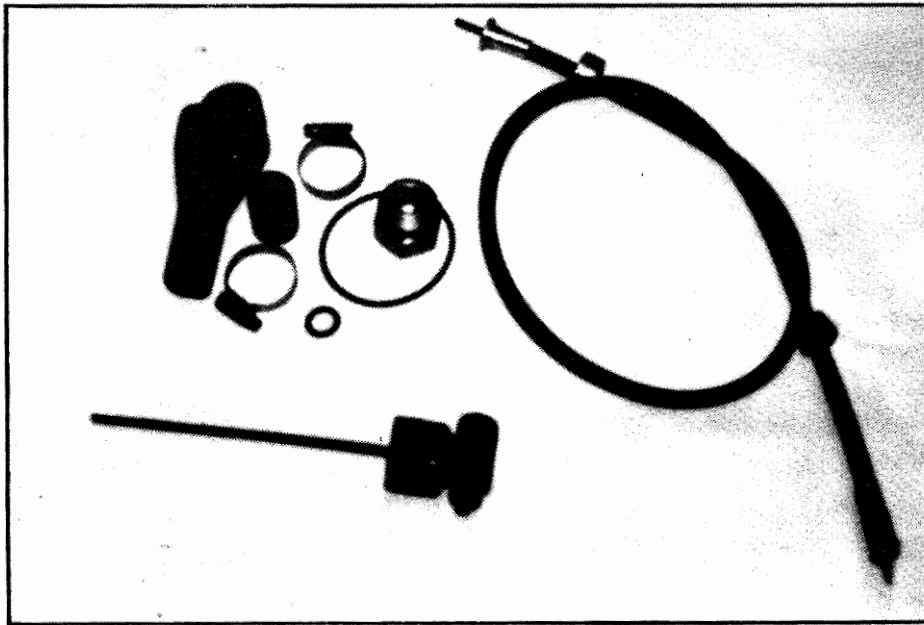

SEE PRICE LIST OR CALL FOR CURRENT PRICES.

**DOOR LOCK SOLENOIDS HAVE BEEN A HIGH FAILURE RATE ITEM.**

You can get from us a more reliable solenoid for less than the cost of original equipment. Some modification is required to install.

Original equipment is also still available.

---

LOWER SPEEDOMETER DRIVE APPARATUS

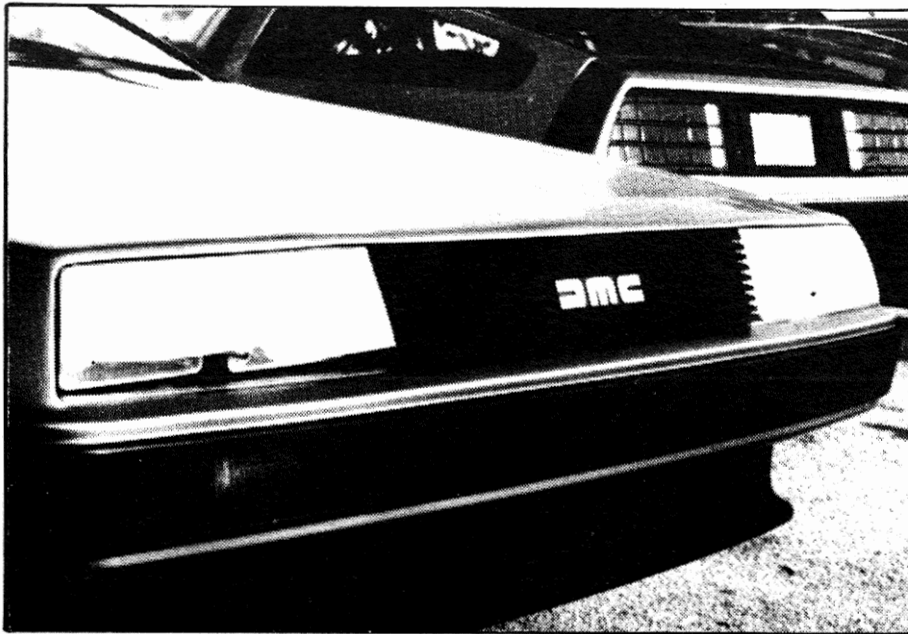

**SPEEDOMETER DRIVE ADAPTORS and LOWER CABLES  
HAVE BEEN AN 100% FAILURE RATE ITEM.**

Some other "improved" drive units on the market result in a 12½% Speedometer and Odometer error. We test all of our products **BEFORE** we advertise them.

The Weatherproofing kit shown is recommended in the North.

SEE PRICE LIST OR CALL FOR CURRENT PRICES.

### **OUR HEADLIGHT COVERS ARE UNIQUE...**

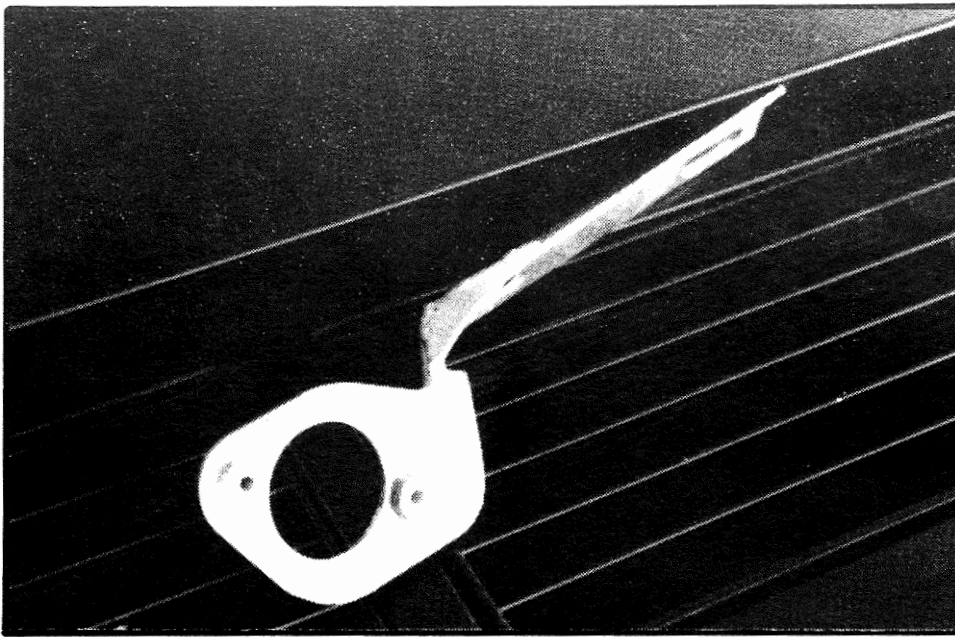

...in that they are secured with screws rather than velcro. Available in clear or smoked Lexan®. Check local law, especially on smoked lenses.

Many owners prefer an uncluttered look. Removal of the grill center emblem is easy. The grill pulls forward out of its clips by hand. The three retainers on the back can be removed with pliers or snips.

Jackets, Hats, T-Shirts, Sweat Shirts, Running Suits, Emblems are all available at Scientific.

The right side Muffler Bracket has been cracking on some cars. (about 25%). We provide a reinforced bracket to correct this condition.

---

You can get STAINLESS PANELS, Sunshades, Facias, Engines, Automatic Transaxles and Manual Transaxles, **REPAIRED** by Scientific.

The skills required to recondition these units are much higher than to remove and reinstall them. We'll help with crates and boxes when necessary.

Please call for details.

**We stock NEW and USED parts. - Body, Chassis, & Engine - ALL**

Stubborn stains can be removed from your Delorean by using our cleaning material. We have the stuff. As soon as we figure out the best way to package it, you can have this excellent, labor saving compound too.
